

Trust Anchor Applicability Statement

draft-rir-rpki-allres-ta-app-statement-00

RIR State of Affairs

- Moving into the world of Inter-RIR transfers
- Transfers now occurring between APNIC, RIPE, and ARIN
- Difference in way each RIR handles Trust Anchors now
- Desire to simply, make operationally robust, and coalesce various Trust Anchor handling into one common way between the five RIRs

Summary of Draft

- Effects of over-claiming has grave consequences to ISPs within region
 - A mistake by one RIR can invalidate all the child resources of the another RIR
- The various RIR's agreed to each reflect all holdings to remove that operational concern

This draft is..

- Not to make this a venue to ask permission for this change
- The draft is meant to be transparent on the RIR intentions on what was agreed to be done
- If you want to have an impact and change TA management of each RIR:
 - Go to a RIR meeting and make your concerns known
 - Or
 - Talk to RIR board members about your concerns

Next Steps

- Ask to be published along side other SIDR RFCs
 - For the benefit of implementers, network operators, and those relying on the RPKI

Thank you
