Agenda:
Recent changes
Next Steps
Recent Events

• WG LC done in October
• GEN-ART and OPS reviews done since then
• GEN_ART review has resulted in some non-trivial changes
Changes since LC

- New use case on dual-homing and diversity requirements has been improved
- Overview of signaling process added
- Signaling has been clarified: SRLG-collection request is only meaningful on Path message; Resv collection is derived from Path state
- Added upstream/downstream bit to SRLG sub-object
- Policy control has been clarified and tightened up to mandate that implementations allow this
Next Steps

- Another WG LC
- Publication process

Thank you
