

A General Mechanism for RTP Header Extensions: draft-ietf-avtcore-rfc5285-bis-02

Roni Even

Dave Singer

Harikishan Desineni

Changes from last IETF meeting

- Address comments from Colin, mostly editorial.

Open Issue

- There was a proposal to add text providing general considerations for getting the header extensions delivered to the receiver.
- Dave Singer suggested using text from section 4.2.3 of draft-ietf-avtext-sdes-hdr-ext and to split section 4.1 of the document to subsections.
- Proposed text was sent to the list for comments
- No feedback yet

Next steps

- New version after the meeting to include the proposed text on transmission considerations.
- Next version will be ready for WGLC
