

COSE Message

Jim Schaad

August Cellars

IETF 96 - Berlin

Current Status

- Moving towards the IESG
- Expect more reviews and revisions in the process
 - Substantial changes will be highlighted to the list
- Timing for getting pre-assignments from registries
- Gatekeepers for COSE registries

Implementations

- C#, Java, C versions on GitHub by me
 - Pull requests welcome
 - Crypto Packages
- Examples on GitHub
 - At least one example of every algorithm
 - Both Passing and Failing tests exist
 - Pull requests for new examples welcome
 - Issues for missing examples welcome
- Code Sprints
 - Planned for the next 3 meetings
 - What do people want to focus on
