

SIDR in OPSarea

morrowc/sandy

The Time has Come

All protocol related documents are in-queue for publication
or soon will be...

bgpsec-overview, delta-protocol, Ita-use-cases,
sidr-publication, validation-reconsidered, slurm

OPS Area Destination

As a completed system, SIDR will have operational work to take care of soon.

There are already some work items for an ops group:

bgpsec-rollover

rtr-keying

route-server-rpki-light

rpki-tree-validation

Proposing - SIDRops

Charter text:

<https://github.com/morrowc/sidr-docs/blob/master/sidr-ops>

This will be on-list shortly for discussion, improvements accepted, should be a standard ops-area group charter
