

draft-ietf-v6ops-host-addr- availability

John Jason Brzozowski

Gunter Van de Velde

Update

- Captive portal text extracted from the I-D
 - Moving to a new I-D
- Some of the comments received to date have been factored into -01
 - Authors verifying whether additional edits are required (we think there are)
- An -02 will most likely be produced
 - Targeted for IETF 97, this is the I-D that we will request to advance
