[draft-ietf-i2rs-fb-rib-data-model-00.txt](#)

draft-ietf-i2rs-pkt-eca-data-model-02.txt

# FB-RIB Progress

- Worked with I2NSF people to determine if Policy filters meet both policy routing + Security
- Feedback
  - Simple was necessary to get implementation out
  - I2RS Filters are complex
  - ACLs needed to be added.

# Questions to WG

- Are Event addition - good or bad?
- Should we put ACLs - in draft-pkt-eca-data-model-02 or separate yang model
  - 3 choices: Separate, Same, implement and see what works
- Current plane – Choice 3
