# Note Well

This summary is only meant to point you in the right direction, and doesn't have all the nuances. The IETF's IPR Policy is set forth in BCP 79; please read it carefully.

**The brief summary:**

❖ **By participating with the IETF, you agree to follow IETF processes.**

❖ **If you are aware that a contribution of yours (something you write, say, or discuss in any IETF context) is covered by patents or patent applications, you need to disclose that fact.**

❖ **You understand that meetings might be recorded, broadcast, and publicly archived.**

For further information, talk to a chair, ask an Area Director, or review the following:

BCP 9 (on the Internet Standards Process)

If we have time…let's talk about an instant messaging capability

Jabber is all well and good, except clients seem stale and finding a reasonable place to create an account is increasingly sketchy.

Are there alternatives?  Slack?  IRC?  Something else?

Is it worthwhile to consider?
