draft-ietf-dnssd-push-10

Updated 13th March 2017

In keeping with draft-ietf-dnsop-session-signal:

- Each PUSH message generates exactly one PUSH response from the receiver

Fixed omission in RECONFIRM:

- RECONFIRM request now includes disputed RDATA

draft-ietf-dnssd-push-10

Next Step

Plan for Working Group Last Call as soon as dnsop-session-signal WGLC is complete
