Meetings and Where to Have Them

- We are looking at the impact of upcoming meetings in the US.
 - Collecting stories of peoples' experiences in getting into the US or planning for IETF 98
 - Soliciting input from US residents who may be affected by leaving the country
- Immediate focus is on near term meetings already booked in the US
 - The IAOC has a recommendation from its Meetings Committee regarding IETF 102, currently planned for San Francisco and is actively discussing based on the input solicited on border issues.

2017 Budget Information

2017 Budget for the IETF includes a few alterations from prior years that warrant note. These include:

- a. An increase in General Support costs reflecting services provided by ISOC staff;
- b. A separate provision for a Communications Project to support sponsorship efforts and efforts to attract and build the community of individuals that contribute to the work within the IETF;
- c. Increased cost of IASA support through adding an events coordinator to support the activities of the IAD; and
- d. Segregate the activities of the IETF Trust from the financial reporting for the IETF.
