

OPSEC

(Operational Security Capabilities for IP Network
Infrastructure)

Eric Vyncke
Gunter Van de Velde

IETF 98, 28th of March 2017
Chicago, IL, USA

Administrivia

- Chairs:
 - Eric Vyncke
 - Gunter Van de Velde
- Jabber Scribe:
 - opsec@ietf.jabber.org
- Minutes:
 - <http://tools.ietf.org/wg/opsec/minutes>
- Note Well.
- Blue Sheets.
- Agenda Bashing.

Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

Blue Sheets

- Please fill these in
- The secretariat makes grumpy-face if we don't.

Agenda

- Administrivia, Chairs, 10 min
- I2RS Environment Security Requirements + I2RS Security Related Requirements
 - Susan Hares (30 minutes)
- Operational Security Considerations for IPv6 Networks
 - Merike Kaeo (15 minutes)
- Security of Messages Exchanged Between Servers and Relay Agents
 - Bernie Volz (15 minutes)
- IPv6 DOTS Signal Option,
 - Jérôme François (15 minutes)
- Automatic Certificate Management Environment (ACME)
 - Richard Barnes (15 minutes)
