Next steps for 4 Yang Documents

- **Awaiting QA reviews from RTG-DIR, OPS-DIR,**
  - draft-ietf-i2rs-yang-network-topo-14 [Alex Clemm]
  - draft-ietf-i2rs-yang-l3-topology [Alex Clemm]
  - draft-ietf-i2rs-rib-data-model [Mach Chen]
  - draft-ietf-i2rs-rib-info-model [Mach Chen]
- **These models are revised data store modules**
  - Can go in configuration or dynamic data store.
- Status:
  - QA Reviews pending 7/31/2017.
  - Once reviews in, we will send in publication request for all for documents.

Congratulations to WG

ADs request

- Adjust milestones and plans

What's left in Basic work

- No ephemeral state dynamic datastore
  - Template in the appendix B of revised datastore. https://datatracker.ietf.org/doc/draft-ietf-netmod-revised-datastores/
  - Soliciting authors

Choices in list

- Work on ephemeral state
- Work on New Models – for specific deployments
- Wait for more implementations
  - Topology models are in public source
  - Some people have discussed privately about commercial or open source
