ICE Working Group

IETF 99, Prague, Czech Republic

Chairs: Ari Keränen, Flemming Andreasen

Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 8179.

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 8179 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

Administrativia

- Please sign the blue sheets

- Need help:
  - Jabber scribe
  - Note takers

- When you speak
  - Use the microphone
  - Please state your name

Agenda

13:30-13:35 Introduction and Status Update (5 mins, Chairs)

13:35-15:30 Finalizing ICE bis (whatever it takes)

WG Status

- Dual Stack Fairness
  - With RFC Editor. Waiting for ICE-bis

- Trickle ICE
  - WGLC ended
  - Will request publication

- ICE-bis
  - WGLC after this update

Finalizing ICE

- Thorough review and big PR from Peter Thatcher
  - https://github.com/ice-wg/rfc5245bis/pull/38/files

- Mostly editorial, but we want to make sure it didn't break anything
- Plan for today: review key parts of the PR

- Any other known issues?
  - Few editorial fixes on next slide

Extra state (editorial)

- ICE State: Running, Completed, Failed
  - Is this really needed? ICE can complete, fail etc, but do we really need to have a state machine for it?

- Check list state: Running, Completed, Failed
  Check list status: Frozen, Active
  - Do we need both the check list status and state?

ICE priorities (normative clarification)

- What is the uniqueness requirement (scope) for candidate pairs?
