Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 8179.

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 8179 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.
Note taking, Jabber

- Please contribute to notes using Etherpad (linked from IETF agenda on datatracker)
  - You do not have to be the exclusive note-taker, you can be a contributor
  - Especially, verify your name and comments at the mic are captured accurately
Meeting Etiquette

- Take side conversations outside, mute your electronics.
- Use the mic for questions.
- At the mic, state your name *clearly* and *slowly*.
  - The minute-taker will thank you.
  - Consider checking Etherpad or Jabber and correcting your name spelling.
Document Status

- New RFCs
  - None

- AUTH-48 completed
  - draft-ietf-idr-shutdown, will be RFC 8203

- Sent to IESG
  - draft-ietf-idr-bgp-gr-notification
  - draft-ietf-idr-bgp-prefix-sid
Status [2]

- WGLC completed
  - draft-ietf-idr-bgppls-segment-routing-epe

- WGLC in progress
  - draft-ietf-idr-bgp-ls-node-admin-tag-extension
  - draft-ietf-idr-bgp-ls-segment-routing-ext

- New WGLC needed
  - draft-ietf-idr-tunnel-encaps
Status [3]

- New WG documents
  - draft-ietf-idr-bgp-ls-segment-routing-msd
  - draft-previdi-idr-segment-routing-te-policy
  - draft-vandevelde-idr-bgp-ls-segment-routing-rld
  - draft-ietf-idr-next-hop-capability
  - draft-ietf-idr-bgp-open-policy

- Waiting for implementation
  - draft-ietf-idr-rtc-no-rt
Status [4]

- Early Allocations completed
  - draft-ietf-idr-tunnel-encaps

- Early Allocation requests in progress
  - draft-ietf-idr-bgp-ls-segment-routing-ext
  - draft-ietf-idr-te-pm-bgp
Status [5]

- New IPR disclosures
  - Cisco's Statement about IPR related to draft-previdi-idr-segment-routing-te-policy (April 21, 2017)
  - Telefonaktiebolaget LM Ericsson (publ)'s Statement about IPR related to draft-tantsura-idr-bgp-ls-segment-routing-msd (June 26, 2017)
IDR Wiki

- https://trac.ietf.org/trac/idr/wiki
  - Implementation reports
  - Draft authorship checklist
  - Meeting presentation checklist
  - RFC commentary
    - Things not clear in RFCs that aren’t errata and don’t rise to the level of an update or bis RFC
- Please consult, update, use the your wiki
Agenda

- **Chair's administrivia [9:30-9:40 am]**
  0) Agenda bashing and Chair's slides (25)

**Updates on existing IDR drafts [9:40-10:40 am]**

1) Dissemination of Flow Specification Rules [Christoph Loibl] (10)
2) The BGP Tunnel Encapsulation Attribute [Keyur Patel] (10)
3) Making Route Servers Aware of Data Link Failures at IXPs [Jeff Haas] (10)
4) Route Leak Prevention using Roles in Update and Open messages [Alexander Azimov] (10)

**Updates on existing individual drafts [10:40-11:10 am]**

1) Carry congestion status in BGP extended community [Zhenqiang Li] (10)
2) Populate to FIB Action for FlowSpec [Zhenqiang Li] (10)
3) BGP Logical Link Discovery Protocol (LLDP) Peer Discovery [Acee Lindom] (10)

**New Work [11:00-12:00]**

1) BGP Support for Fast Link Status Notification [Marcus Sun] (10)
