

# Next steps for lpwan

Ana Minaburo

IETF 99 - Prague

# Mailing List discussion

- ICMP Compression (draft from Diego)
- SCHC over specific LPWAN technologies
  - Profile Technologies.
  - Develop the different document for each technology in order to define the different parameters.
- Security, all the security solution for the LPWAN
- Rules-ID's management – Use to identify some specific cases:
  - Fragmentation
  - Format Values
  - Rule-IDs dedicated for some specific cases as CBOR structure representation, fragmentation, etc
  - The way to use the Rule-Id and their configuration
- YANG data modeling for SCHC

# OPEN DISCUSSION ON RECHARTERING
