# Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of [RFC 5378](#) and [RFC 8179](#).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult [RFC 5378](#) and [RFC 8179](#) for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

# Logistics

- Minutes takers
- Use Etherpad:
  - <http://etherpad.tools.ietf.org:9000/p/notes-ietf-99-lwig>
- Jabber scribe?
- Blue sheet: Thank you

# Github WG mgmt

- <https://github.com/lwig-wg>

The screenshot shows the GitHub repository management interface for the 'lwig-wg' organization. At the top, there is a navigation bar with tabs for 'Repositories', 'People 7', 'Teams 2', 'Projects 0', and 'Settings'. Below this is a search bar for repositories, filters for 'Type: All' and 'Language: All', and a 'New' button. The main content area displays two repositories:

- terminology**: Draft for Update of RFC 7228. Language: Makefile. Updated on 26 Jan.
- coap**: Implementation Guidance for CoAP. Language: Makefile. Updated on 26 Jan.

On the right side, there are two sidebars:

- Top languages**: Makefile.
- People**: 7 > (with profile pictures of team members).

# Updated Milestones

- Dec 2016 - Submit the energy efficient implementation guidance document to the IESG for publication as an Informational RFC
- Jan 2017 - Submit the lightweight crypto implementation document to the IESG for publication as an Informational RFC
- Mar 2017 - Submit the CoAP implementation document to the IESG for publication as an Informational RFC
- Nov 2017 - Submit the TCP over constrained networks guidance document to the IESG for publication as an Informational RFC
- Mar 2018 - Submit the minimal ESP guidance document to the IESG for publication as an Informational RFC
