

Network Time Protocol Best Current Practices

draft-ietf-ntp-bcp-05

Denis Reilly, Harlan Stenn, Dieter Sibold

Changes since WGLC

- Changed language regarding the number of time sources
- Changed language regarding anycast
- Re-draft autokey section
- Pointer to the new 4th column in NTP's key file
- Clarification on RATE KoD packets
- Editorial changes

Next Steps

- Adjustments in Sec. 5.3 “Network Time Security”
- If no further objections: IESG review
