

# SWIMA Update

20 July 2017

<https://datatracker.ietf.org/doc/draft-ietf-sacm-nea-swima-patnc/>

draft-ietf-sacm-nea-swima-patnc-00

# Status

- Latest draft June 28
- Addressed all known open issues

# Changes made in swima-00

- Fixed title (was “swid-patnc”; now “swima-patnc”)
- Changed flag for unknown software location to an empty field (rather than the 8-byte “unknown:” string)
- Provide guidance on behavior when reporting a record that is no longer available (i.e., return a 0-length record)
- Reordered attribute fields so values immediately follow lengths in all cases
- Altered Software Identifier algorithm for SWID tags so identifiers no longer start with a length
- Other minor typo fixes or clarifying edits

# Next Steps

- No comments received since latest draft posted.
