Yang Debate and Resolution

NMDA resolves

Yang modules and NMDA

- All new Yang modules must abide by the revised datastore module (NMDA)
- Trill Yang documents are pre-revised datastores
 - draft-ietf-trill-yang-oam
 - Draft-ietf-trill-yang
- Options for Yang
 - Publish old model as informational if deployed
 - Publish revised model that is revised-data store module
- Will be taking this approach for TRILL Yang
