

Congestion Control

Börje Ohlman

Some questions

- Explicitly stating size of data in Interest message?
- How does MIRC/PCON over ICN compare to TCP over ICN?
- How will it work over lossy links (e.g. WiFi) or links with unknown capacity (e.g. IP tunnels with other competing IP traffic)
- Can we get better latency than with TCP?
- Migration from a window based world to a rate based?
 - TCP friendliness?
 - Needed?
 - Wanted?
