

draft-ietf-dots-architecture update

A. Mortensen, N. Teague, F. Andreassen,
T. Reddy, R. Compton, C. Gray

Status

- All issues on github now closed
- Addressed on-list feedback
- Potential new multi-homing issue

Recently closed issues

- Issue #6: Clarify multi-homing challenges
- Issue #7: Privacy in recursive signaling

On-list feedback

- Leave room for QUIC
- Call out lack of protocol-level resolution for potential multi-homing complications

Multi-homing discussion

- Last unresolved issue before WGLC?

Thank you
