

DOTS Interim Meeting, 8Jun2017

DDoS Open Threat Signaling (DOTS) Working Group

draft-ietf-dots-use-cases Update

Roland Dobbins – Arbor Networks

Stefan Fouant – Corero Network Security

Daniel Migault – Ericsson

Robert Moskowitz – HTT Consulting

Nik Teague – Verisign

Liang 'Frank' Xia – Huawei

Kaname Nishizuka - NTT

Changes in -05

- Inclusion of substantial input on the use of DOTS in broadband access network scenarios (currently referred to as 'homenet').
- Many thanks to Mohamed Boucadair for this contribution, & Daniel Migault for incorporating and editing it!

Outstanding Issues Impacting WGLC Readiness

- Additional use-cases for a broader range of scenarios.
- Both the broadband access network and orchestration sections are in need of refinement, streamlining, and scoping.
- Adjust terminology in the broadband access network and orchestration sessions to conform with accepted industry norms.
- Grammatical & prose cleanup throughout.

Preparing Upcoming -07 for WGLC

- Incorporate 8 new use-cases (7 are ready now).
- Refine, streamline, and scope broadband access network and orchestration sections.
- Alter terminology to conform to accepted industry norms.
- Clean up grammar and prose throughout.
- Move to kramdown-rfc2629 draft generation process in order to facilitate contributions from non-coders.
- Prepare kramdown-rfc2629 version of -05; implement changes described above; generate -06; circulate for input.
- Incorporate input, generate -07 as WGLC candidate.

DOTS Interim Meeting, 8Jun2017

DDoS Open Threat Signaling (DOTS) Working Group

Thank You!

Roland Dobbins – Arbor Networks

Stefan Fouant – Corero Network Security

Daniel Migault – Ericsson

Robert Moskowitz – HTT Consulting

Nik Teague – Verisign

Liang 'Frank' Xia – Huawei

Kaname Nishizuka - NTT
