# A Quick Update on Harmonization Work

ICNRG Interim Meeting, Prague

July 16, 2017

# NDN/CCNx 1.0 Harmonization Effort

- Identify and document
  - commonalities and differences between the architectural design choices of NDN and CCNx 1.0
  - reasons behind these different design choices
- Derive guidelines to move towards convergence

# Differences draft

- Design Choices and Differences for NDN and CCNx 1.0 Implementations of Information-Centric Networking
    - [https://github.com/icnrg/draft-icnrg-harmonization](https://github.com/icnrg/draft-icnrg-harmonization)

- Original plan
    - Finish the initial draft by this meeting

- Status
    - Yet to be finished due to a number of time conflicts since last meeting
    - Will push to finish by next ICNRG meeting (end of September)
