SACM Virtual Interim Notes
2017-06-09

MEETING RECORDINGS:

https://www.dropbox.com/sh/bs0hioy5qh6qzr1/AAA2lzSwCFE_pfYMlpP3bRu_a?dl=0

- Status:
  - o Requirements submitted for IESG pub
  - o Hackathon planning is underway
  - o IM and ROLIE SW Draft Updates
  - o Slack Quiet
  - o Some life on list
- Benoit YANG Discussion
  - o SACM has expressed interest in using YANG
  - o YANG is a data modelling language, there are 200+ modules in the IETF, 2000+ overall
  - o YANG leaves could represent the exposed data on the endpoint
  - o Benoit shares a picture overview of YANG
  - o There is a YANG validator ay yangvalidator.com
  - o Yang DB search provides a way of finding relevant YANG modules (yangcatalog.org)
  - o Yang Explorer provides functionality
  - o SACM has expertise that can produce a software YANG module, should it be done in SACM or in NETMOD?
    - ▪ SACM is fine
- SWIMA Update
  - o Draft update on March 13, offlist comments sent to list on June 1
  - o No objections on proposed SWIMA updates, updates will be made before July 3
- Terminology
  - o Small non-controversial incremental update before hackathon, bigger updates after
- Hackathon Planning
  - o Goal is to accomplish as much as possible before the hackathon, so we can focus on resolving remaining interop issues once we're in the same room
  - o Invites will be coming out soon for a weekly meeting.
  - o Good progress all around
- Way Forward
  - o Continue (and prioritize) hackathon prep
  - o Update terminology draft
  - o Update SWIMA draft
  - o Work toward WGLC for COSWID and SWIMA
  - o Work toward Adoption calls for ROLIE SWD extension, Endpoint Compliance Profile
  - o WG Review of Anomaly Detection draft
