DOTS Architecture

https://tools.ietf.org/html/draft-ietf-dots-architecture

DOTS Interim Meeting, Feb 2018

Presenter: Andrew Mortensen

Overview

- Current status
- Obstacles to WGLC

Current Status

- End-to-end scrub resulted in -05 revision
- Rough consensus to add NAT considerations section following IETF 100
- Unpublished NAT considerations work-in-progress

Obstacles to WGLC

- Consensus on NAT considerations focus
  - Signaling from DOTS agent behind NAT
  - Identifying public mitigation scope for attack target behind NAT
  - Highlight STUN beyond RFC8085 reference?

Thank you
