

# Towards an intent lifecycle and operating principles

Laurent Ciavaglia

NMRG, July 2019

# Lifecycle

- Similar to service lifecycle ?
  - Design, provisioning, operation, decommissioning...
- Describe the functions, their inputs/outputs
  - Secondary goal: identify challenges and differentiating features (qualitative, quantitative)
- Right and consistent “dimension” i.e. what are we trying to describe
- Right and consistent level of detail/abstraction
