- Side channel text chat: calext@jabber.ietf.org
- Notes:

https://etherpad.ietf.org:9009/p/calext-interim-apr-2020

• Email: calsify@ietf.org

Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

•By participating in the IETF, you agree to follow IETF processes and policies.

•If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.

•As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.

•Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.

•As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<u>https://www.ietf.org/contact/ombudsteam/</u>) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

BCP 9 (Internet Standards Process)
BCP 25 (Working Group processes)
BCP 25 (Anti-Harassment Procedures)
BCP 54 (Code of Conduct)
BCP 78 (Copyright)
BCP 79 (Patents, Participation)
https://www.ietf.org/privacy-policy/ (Privacy Policy)

Agenda

- Welcome and Note Well: 5min (Bron)
 - Agenda Bash
 - Discussion of how we work without face-to-face meetings as a forcing factor
 - Minutes of last meeting: https://datatracker.ietf.org/doc/minutes-106-calext/
- Current Drafts: 45 min
 - Eventpub https://datatracker.ietf.org/doc/draft-ietf-calext-eventpub-extensions/
 - Series https://datatracker.ietf.org/doc/draft-ietf-calext-icalendar-series/
 - JSCalendar https://datatracker.ietf.org/doc/draft-ietf-calext-jscalendar/
 - Subscription Upgrade https://datatracker.ietf.org/doc/draft-ietf-calext-subscription-upgrade/
 - VAlarm Extensions https://datatracker.ietf.org/doc/draft-ietf-calext-valarm-extensions/
 - Vpoll https://datatracker.ietf.org/doc/draft-ietf-calext-vpoll/
- New work: 20 min
 - Server-side subscriptions: https://tools.ietf.org/html/draft-douglass-serverside-subscriptions-00
 - JSCalendar extensions?
 - iSchedule upgrade
- Any other business: 20 min
 - Milestone review

eventpub

- **STATE:** IESG Evaluation::AD Followup
 - Needs followup with Barry
- **ACTION:** Mike to update draft to have initial data copied into the event and the URIs be a way to get updated data.
- MILESTONE: June 2019 (eep)
- Main issue still appears to be URI security considerations and privacy concerns.

Icalendar series

- STATE: WG Document (accepted Nov 2019)
- ACTION: discuss on list
- MILESTONE: June 2020
- Next steps implementation experience?

jscalendar

- **STATE:** Waiting for AD Go-Ahead::Point Raised writeup needed
 - Believe this was resolved with -26
- ACTION: Daniel to talk with IANA this week while they're colocated.
- ACTION: Neil to change recurrenceRule(s) and take it back to the list
- MILESTONE: Dec 2019
- Feedback from Mike on the mailing list:
 - What needs to be done in the format and what belongs in the translation doc?

subscription upgrade

- **STATE:** WG Document
- **ACTION:** Mike to define CALDAV details better and new draft will be discussed on the list.
- **MILESTONE:** Apr 2019 (adoption, done)

valarm extensions

- **STATE:** WG Document
- **ACTION:** Ken will add geopriv text and documentation of assumptions
- MILESTONE: Dec 2019
- Documenting existing protocol which has been in use for years.

vpoll

- **STATE:** WG Document
- ACTION: Mike and Ken to continue iterating and discuss on list
- MILESTONE: Apr 2020

Server-side subscriptions

- **STATE:** Draft exists, not yet adopted
- Not discussed at least meeting
- Review existing implementations "in the wild"

JSCalendar Extensions

- Bron's notes from last CalConnect:
 - what are we going to try to re-express and when?
 - list all the extensions that currently exist and order them.
 - obviously vavailability, eventpub, Cyrus' extensions
 - device into draft and not draft
 - look through caldav and see what we should embed so we can do jscalendar-over-caldav.
 - assumes tz-by-reference already
 - sharing and user notifications
 - managed attachments is already handled
 - standardise X-properties?

iSchedule Upgrade

- Bron's notes from last CalConnect:
 - Bron and Neil to write up.
 - proof of concept for "change that doesn't justify an email" inside Cyrus.
 - will start from ischedule.
- General concept is "Initial scheduling happens via email, the rest via a perevent, per-attendee URI".
 - Invitation has a URI that attendee can use for direct updates
 - Attendee adds a URI in their reply which allows the server to push further updates.
 - No "per person" or "per calendar" relationship formed, just a key to this one event.

Milestone Review

- Jun 2020 Submit calendar series document to IESG for publication
- Apr 2020 Submit vpoll document to IESG for publication
- Apr 2020 Update charter/milestones to reflect current and planned work
- Feb 2020 Submit scheduling controls document to IESG for publication
- Dec 2019 Submit valarm document to IESG for publication
- Dec 2019 Send JSCalendar draft to IESG
