draft-ietf-lpwan-schc-over-lorawan

Ivaylo Petrov (ivaylo@ackl.io)
Olivier Gimenez (ogimenez@semtech.com)

IETF-107, Home, April 21\textsuperscript{th}, 2020
Presentation agenda

• Changes since IETF-106
• Technical discussion
• Next step
Recap since IETF-106

• What has happened since IETF-106?
  • Drafts -05, -06 and -07 published
  • Very useful feedback
Changes in -05

• Added IID proposition
• Lot of edits following shepherd review
• Updated acknowledgements
• Changed ACK behavior from the end of each window to optional for uplink fragmentation
Changes in -06

• Added IID collision paragraph
• Updated security explanations
• Improved SCHC ACK behaviour description following Arun comment
• Fixed RFC compilation issue
• Clarified last tile behaviour
IID

- Derived from DevEUI and LoRaWAN AppSKey
- Can be renewed by issuing a new join
- Approved by the LoRa Alliance
Ready for last call?

• Authors and shepherd agreed for a last call on draft-007
Thank you for your attention
