interim-2021-ace-07  
April, 13, 2021

# Current Status

- Working on the comments received from the ACE WG
  - Make the draft removing references to V2 of CMP protocol.
  - Drop support CMPv1.
  - Evaluate if any changes are required for CMPv3 (WIP) draft.
  - Add more details in the service discovery section.
  - Add more clarifications around DTLS to TLS proxy.
