Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- BCP 9 (Internet Standards Process)
- BCP 25 (Working Group processes)
- BCP 25 (Anti-Harassment Procedures)
- BCP 54 (Code of Conduct)
- BCP 78 (Copyright)
- BCP 79 (Patents, Participation)
- <https://www.ietf.org/privacy-policy/> (Privacy Policy)

Agenda

- Intro and Note Well: 5 min
- <https://codimd.ietf.org/notes-ietf-interim-2021-calext-01-calext> - note your name!
- CALEXT 35 min
 - Drafts in editor queue: 5 min
 - Current work items: 30 min
 - draft-ietf-calext-ical-relations
 - draft-ietf-calext-jscalendar-icalendar
 - draft-ietf-calext-icalendar-series
 - draft-ietf-calext-serverside-subscriptions
 - draft-ietf-calext-subscription-upgrade
 - draft-ietf-calext-vpoll
- JMAP 35 min
 - draft-ietf-jmap-calendars: 5 min
 - draft-ietf-jmap-tasks: 10 min
 - draft-jenkins-jmap-sharing: 5 min
 - draft-ietf-jmap-jscontact+vcards: 15 min
- Milestone review: 5 min
- Other Business: 10 min

Agenda - CALEXT

- Drafts in editor queue: 5 min
- Current work items: 30 min
 - draft-ietf-calext-ical-relations
 - draft-ietf-calext-jscalendar-icalendar
 - draft-ietf-calext-icalendar-series
 - draft-ietf-calext-serverside-subscriptions
 - draft-ietf-calext-subscription-upgrade
 - draft-ietf-calext-vpoll

CALEXT - with RFC editor

- jscalendar: AUTH48 state
 - should publish this week
- eventpub: RFC-EDITOR state
- valarm extensions: REF state
 - cluster 435 with eventpub

ical-relations

- Bron did IETF last-call, no objections
- ACTION: Mike - do we need to add JSCalendar mappings?
- Otherwise, submit to IESG right now

jscalendar-icalendar

- Mapping document still being worked on:
 - Are we close to last call?
 - Interop tests?

icalendar-series

- Notes from IETF110:
 - Neil has concerns that need to be discussed (at CalConnect)
 - So let's discuss!

serverside-subscriptions

- IETF110 ACTIONS:
 - Mike & Ken were hoping to sync up with what Apple have deployed.
 - Mike/Ken to follow up with Apple.

subscription-upgrade

- IETF110 ACTIONS:
 - Mike to upload new draft - DONE
 - Bron to WGLC on new draft – **NOT DONE** sorry
- Should we just WGLC now?

vpoll

- Notes from IETF110:
 - Waiting on VPOLL to use PARTICIPANT component
 - Unlikely to be done until mid-2021 at the earliest.
 - Will need to sync with JSCalendar

Agenda - JMAP

- draft-ietf-jmap-calendars: 5 min
- draft-ietf-jmap-tasks: 10 min
- draft-jenkins-jmap-sharing: 5 min
- draft-ietf-jmap-jscontact+vcards: 15 min

jmap-calendars

- Notes from IETF110:
 - Expecting implementation experience at Fastmail before next IETF

tasks

- Document is adopted by the working group
 - needs an updated document with the name `draft-ietf-jmap-tasks`

sharing

- Call for adoption? Last notes were:
 - Alexey: had a quick read today, it looks reasonable. Will send specific questions to the mailing list. General comment: more examples would be useful.
 - Neil: yes, all these specs need more examples - will do once we have implemented, then we can get them off the wire.

jscontact + vcard

- IETF110 ACTION:
 - Will switch many properties to sets, to be compatible with VCARD pref parameter.
 - Groups: discuss at CalConnect (so let's do that!)
 - Should it allow all properties of a contact, or just name + members?

Milestone Review
