Changes from v12

- Note about encryption

Garbage-Collect Component

- Rename to Unlink?

Open Issues (1)

- CDDL: Remove COSE definitions?
 - Add note to CDDL section that explains RFC8152's CDDL should be concatenated after Manifest CDDL

Open Issues (2)

- Detach Recipients from COSE_Encrypt
 - Encode in the envelope
 - Enables a firmware author to upload many recipients
 - Enables a distributor to only distribute one recipient to each device
 - Modifying recipients does not change signature
