DNSSEC AUTOMATION

Draft written by Ulrich Wisser and Shumon Huque

Proof of Concept implementation by Johan Stenstam and Roger Murray (Internetstiftelsen)

Latest changes

- Algorithms for ZSK, KSK and Algorithm Rollover

- Explicit handling of CSK

- Fixed sequences for easier handling of joining procedures

Proof Of Concept

- https://github.com/DNSSEC-Provisioning/music

- Works with PowerDNS and Bind and (probably) with Knot

- Plugin for DeSec API

- Work in Progress: Plugin CloudFlare

- More Plugins (code submission) are welcome!
