

Rfc5661bis Effort

Status Overview

David Noveck

For NFSv4 Interim

November 21, 2023

Contents

- Pressing Issues to address soon, in [Next Slide](#).
- Document status summary in [Slide 4](#).
- Recent changes:
 - Relative to status presented at IETF118 on 11/4.
 - Those slides can be found in IETF118 meeting materials.
 - Important changes described in [Slide 5](#).

Pressing Issues to Address

- Potential adoption of security-07.
 - Need more working group discussion of document contents both during and after adoption call.
- Move forward on internationalization.
 - Need to decide on best path forward given conflicting external reviews.

Document Status Summary

Document	#	Status	Work to do
Rfc5661bis	-01	WG doc	<i>Get next draft out to co-ordinate with recent changes in the security document.</i>
Security	-07	Pers. Draft	<i>Discuss and schedule adoption decision. Group discussion re differences from rfc8881.</i>
Internationalization	-07	WG doc.	<i>Make decision regarding handling of external reviews and reflect in next draft.</i>
Rfc5662bis	-01	Pers. Draft.	<i>Needs adoption but there is no rush..</i>

Changes Since IETF118 (11/4)

- Submission of security-07.
 - Specific changes will be listed in security slide set.
- Submission of rfc5662bis-01.
 - To deal with fact that -00 had expired – no changes
- Refinement of plans for internationalization document
 - Third possibility for -08, in addition to two already discussed.
 - Could make decision on future path by comparing
 - -07 which fully addresses case-insensitivity
 - Personal draft which moves that material to appendices
 - Potential -08 that could be – personal draft with appendices removed.
