Contents

• Pressing Issues to address soon:
  • Security document: Slide 3
  • Internationalization document: Slide 4

• Document status summary in Slide 5.

• Recent changes:
  • Relative to status presented at IETF118 on 11/4.
  • Those slides can be found in IETF118 meeting materials.
  • Important changes described in Slide 6.
Pressing Issues to Address
Re Security Document

• Potential adoption of security-07.
  • Adoption call for security-06 fizzled and is no longer current

• Need more working group discussion of document contents both during and after adoption call.
Pressing Issues to Address
Re Internationalization Document

• Need to Move forward on internationalization.
• Have to decide on best path forward given conflicting external reviews.
• Expect to have personal draft for one of alternatives, for WG discussion.
  • Expected in January

Changes Since IETF118 (11/4)

- Submission of security-07.
  - Specific changes will be listed in security slide set.

- Submission of rfc5662bis-01.
  - To deal with fact that -00 had expired – no changes

- Refinement of plans for internationalization document
  - Third possibility for -08, in addition to two already discussed.
  - Could make decision on future path by comparing..
    - -07 which fully addresses case-insensitivity
    - Personal draft which moves that material to appendices
    - Potential -08 that could be: personal draft with appendices removed.
